**Dear Puget Sound Commercial Crab Fishers and Dealers:**

This letter is to inform you of regulation changes for the 2010-11 commercial Dungeness crab season, which begins at 8:00 a.m. on October 5, 2010. It is your responsibility as the Puget Sound Dungeness Crab license owner or wholesale dealer to communicate this important information to the alternate operators and buyers who work for you. The current permanent fishing rules and provisions and the emergency (temporary) rules are included with this packet. The emergency rules replace specific sections of the permanent rules. Both permanent and emergency rules must be read together for a complete understanding of the 2010-11 season regulations. For example, if the permanent rules indicate an area opens on November 1 and the emergency rules list October 15 as the opening date, the area will open on October 15. Please review the regulatory provisions and the following information carefully before fishing and feel free to contact an agency employee at the numbers listed below if you have questions.

**The following regulations will be implemented this season:**

*Crab pot barging*

Setting crab pot gear from a vessel not designated on a crab license ("barging") will be allowed from 8:00 a.m. on October 5, 2010 until 7:59 a.m. on October 7, 2010 provided that the operator or alternate operator designated on the license is on board the non-designated vessel and prior notice is given to WDFW. The license owner must leave a telephone message at the Mill Creek Regional office, (425) 379-2315 with the following information:

- a) Name and license number of license owner.
- b) Name of designated primary operator if different from license owner.
- c) Name of alternate operator if used to deploy pots from a non-designated vessel.
- d) Buoy brand number and number of pots to be deployed from a non-designated vessel.
- e) Name and identification numbers (WN and/or Coast Guard) of the non-designated vessel.

*Regional crab pot limits*

Effective 8:00 a.m. October 5, 2010 until further notice, it is unlawful for any person to fish for

crabs for commercial purposes with more than 50 pots per license, per buoy tag number in Crab Management Region 1 (which includes Marine Fish Shellfish Catch Reporting Areas 20A, 20B, 21A, 21B, 22A and 22B), and Crab Management Region 2 East (which includes Marine Fish Shellfish Catch Reporting Areas 24A, 24B, 24C, 24D, and 26A-E). The remaining buoy tags per license per region must be onboard the designated vessel and available for inspection in Crab Management Areas 1 and 2E.

Any in-season changes to regional pot limits will be announced on the commercial crab hotline:

**(360) 796-4601 ext. 320**

- ❑ DEALERS/BUYERS CAN NO LONGER LEAVE VOICE MESSAGES FOR CATCH REPORTS.

### **Sale under a direct retail endorsement.**

It is unlawful for any fisher selling salmon, sturgeon or Dungeness crab taken by that fisher under a direct retail endorsement, or for a wholesale dealer accepting salmon, sturgeon or crab from such a fisher, to fail to comply with the requirements of this section.

(1) A direct retail endorsement will not be issued to a licensee who is other than a natural person. Applicants for the endorsement must present a letter from the county health department of the fisher's county of residence certifying that the methods used by the fisher for transport, storage and display of product meet the county and statewide standards for food service operations. If the fisher is landing product from a documented vessel, the letter may be from the county health department of the hailing port of the vessel. Additionally, applicants must present a valid food and beverage service worker's permit at the time of application, and pay the direct retail administrative cost of fifty dollars. The health department letter, permit, and administrative cost are required for each application or renewal for a direct retail endorsement.

(2) Any fisher who offers salmon, sturgeon or crab for retail sale must complete a fish receiving ticket for all salmon, sturgeon or crab aboard the harvesting vessel before the product is offered for retail sale, except if the salmon, sturgeon or crab are being offered for sale directly off the catcher vessel, the fisher may complete the ticket with an estimated number or weight. At the completion of the retail activity, the fisher who has completed a ticket with an estimated number or weight is required to enter the actual number and weight of salmon, sturgeon or crab that were sold at retail. The price shown on the fish receiving ticket must be the actual sale price of the salmon, sturgeon or crab.

(3) Any fisher selling salmon, sturgeon or crab at retail if the product is taken from an area under the quick reporting requirements of WAC [220-69-240](#), is required to comply with the quick reporting requirement.

(4) Sturgeon and crab offered for retail sale must be landed in the round. Salmon may be cleaned or headed but not steaked or filleted prior to landing.

(5) In order to allow inspection and sampling, each fisher offering salmon, sturgeon or crab for retail sale at any location other than the harvesting vessel or, if from the harvesting vessel, in an amount having a retail value greater than one hundred fifty dollars must notify the department eighteen hours prior to sale and identify the location of the fisher's vessel, temporary food service establishment or restaurant or other business which prepares and sells food at retail to which the fisher is selling the salmon, sturgeon or crab. The only acceptable notification is by telephone to 360-902-2936, fax to 902-2155, or e-mail to [enforcement-web@dfw.wa.gov](mailto:enforcement-web@dfw.wa.gov).

(6) Each fisher offering salmon, sturgeon or crab for retail sale must maintain a sequentially numbered receipt book, which receipt book contains a receipt duplicate copy, and must give each purchaser of salmon, sturgeon or crab a receipt showing the number, weight and value of salmon, sturgeon or crab sold to that purchaser. The duplicate receipts must be retained by the seller for one year.

(7) If salmon, sturgeon or crab offered for retail sale and documented on a fish receiving ticket are subsequently sold to a licensed wholesale dealer, the sale must be documented by a sale receipt, not a fish receiving ticket, and it is the responsibility of the wholesale dealer to maintain the product separately, until the product is resold or processed.

(8) Violations of this section are punishable under RCW [77.15.640](#), Wholesale fish buying and dealing -- Rules violations.

[Statutory Authority: RCW [77.12.047](#). 04-08-025 (Order 04-63), § 220-20-080, filed 3/29/04, effective 4/29/04; 03-05-059 (Order 03-32), § 220-20-080, filed 2/18/03, effective 3/21/03.]

(1) **Net fishing boats shall not have crab on board.** It is unlawful for any person to possess any quantity of crab on board a vessel geared or equipped with commercial net fishing gear while fishing with the net gear for commercial purposes or while there are commercial quantities of food fish or shellfish on board. Violation of this section is punishable under RCW [77.15.550](#)(1), violation of commercial fishing area or time. However, if such crab are taken or possessed in amounts that constitute a violation of commercial fishing area or time in the first degree, the violation is punishable under RCW [77.15.550](#)(2).

(2) **Area must be open to commercial crabbing.** Except when acting lawfully under the authority of a valid permit as provided in (a) and (c) of this subsection, it is unlawful for any person to set, maintain, or operate any baited or unbaited shellfish pots or ring nets for taking crabs for commercial purposes in any area or at any time when the location is not open for commercial crabbing by permanent rule or emergency rule of the department. Violation of this section is punishable under RCW [77.15.550](#)(1), violation of commercial fishing area or time. However, if such crab are taken or possessed in amounts that constitute a violation of commercial fishing area or time in the first degree, the violation is punishable under RCW [77.15.550](#)(2).

(a) Following the close of a commercial crab season, an emergency coastal crab gear recovery permit may be granted by the director or his or her designee. These emergency permits will be considered on a case-by-case basis to allow crab fishers to recover shellfish pots that were irretrievable due to extreme weather conditions at the end of the lawful season opening. Crab fishers must notify and apply to the department's enforcement program for such emergency permits within twenty-four hours prior to the close of the commercial crab season.

(b) It is unlawful to fail to follow the provisions of an emergency coastal crab gear recovery permit. Violation of this section is punishable under ESHB 1516.

(d) It is unlawful to fail to follow the provisions of a coastal crab gear recovery permit. Violation of this section is punishable under ESHB 1516.

(3) **Crabs must be male and 6-1/4 inches across the back.** It is unlawful for any person acting for commercial purposes to take, possess, deliver, or otherwise control:

(a) Any female Dungeness crabs; or

(b) Any male Dungeness crabs measuring less than 6-1/4 inches, caliper measurement, across the back of the crab's shell immediately in front of the shell's tips. Violation of this section is punishable under RCW [77.15.550](#) (1)(c).

(4) **Each person and each Puget Sound license is limited to 100 pots.** It is unlawful for any person to take or fish for crab for commercial purposes in the Puget Sound licensing district if he or she is using, operating, or controlling any more than an aggregate total of 100 shellfish pots or ring nets. This limit shall apply to each license. However, this shall not preclude a person who holds two Puget Sound crab licenses from designating and using the licenses from one vessel as authorized by RCW [77.65.130](#). Violation of this section is punishable under RCW [77.15.520](#).

(5) **Additional area gear limits.** It is unlawful for any person to use, maintain, operate, or control crab pots or ring nets in excess of the limits prescribed in each of the following Marine Fish-Shellfish Management and Catch Reporting Areas. (7) **Crab buoy and pot tagging requirements.**

(a) It is unlawful to place in the water, pull from the water, possess on the water, or transport on the water any crab buoy or crab pot without an attached buoy and pot tag that meet the requirements of this subsection except as provided for in (b) of this subsection. Violation of this section is punishable under RCW [77.15.520](#).

(b) Persons operating under a valid coastal gear recovery permit issued by the department

may possess crab pots or buoys missing tags or bearing the tags of another license holder, provided that the permittee adheres to provisions of the permit.

(c) Coastal crab pot tags: Each shellfish pot used in the coastal Dungeness crab fishery must bear a tag that identifies either the name of the vessel being used to operate the pot or the Dungeness crab fishery license number of the owner of the pot, and the telephone number of a contact person.

(d) Puget Sound crab pot tags: In Puget Sound, all crab pots must have a durable, nonbiodegradable tag securely attached to the pot and permanently and legibly marked with the license owner's name or license number, and telephone number. If the tag information is illegible, or if the tag is lost for any reason, the pot is not in compliance with state law.

(e) Crab buoy tags: The department will issue crab pot buoy tags to the owner of each commercial crab fishery license upon payment of an annual buoy tag fee per crab pot buoy tag. Prior to setting gear, each Puget Sound crab license holder must purchase 100 tags, and each coastal crab fisher must purchase 300 or 500 tags, depending on the crab pot limit assigned to the license. Only department-issued crab buoy tags may be used, and each crab pot is required to have a buoy tag.

(f) Puget Sound replacement crab buoy tags: Additional tags to replace lost tags will only be issued to owners of Puget Sound commercial crab fishery licenses who obtain, complete, and sign a declaration under penalty of perjury in the presence of an authorized department employee. The declaration shall state the number of buoy tags lost, the location and date where the lost gear or tags were last observed, and the presumed cause of the loss.

(g) Coastal replacement crab buoy tags: Coastal crab license holders with a 300-pot limit will be able to replace up to fifteen lost tags by January 15th, up to a total of thirty lost tags by February 15th, and up to a total of forty-five lost tags after March 15th of each season. Coastal crab license holders with a 500-pot limit will be able to replace up to twenty-five lost tags by January 15th, up to a total of fifty lost tags by February 15th, and up to a total of seventy-five lost tags after March 15th of each season. In the case of extraordinary loss of crab pot gear, the department may, on a case-by-case basis, issue replacement tags in excess of the amount set out in this subsection. Replacement buoy tags for the coastal crab fishery will only be issued after a signed affidavit is received by the department.

**(8) No person can possess or use gear with another person's crab pot tag or crab buoy tag.** It is unlawful for any person to possess, use, control, or operate any crab pot not bearing a tag identifying the pot as that person's, or any buoy not bearing tags issued by the department to that person, except under the following circumstances:

(a) An alternate operator designated on a primary license may possess and operate crab buoys and crab pots bearing the tags of the license holder.

(b) Persons operating under a valid coastal gear recovery permit issued by the department may possess crab pots or buoys bearing the tags of another license holder, provided that

the permittee adheres to provisions of the permit.

(c) Violation of this section is punishable under ESHB 1516.

(9) **No person can tamper with pot tags.** It is unlawful for any person to remove, damage, or otherwise tamper with crab buoy or pot tags except when lawfully applying or removing tags on the person's own buoys and pots. However, persons operating under a valid coastal gear recovery permit or emergency gear recovery permit, issued by the department and who adheres to the permit's provisions may possess crab pots or buoys bearing the tags of another license holder. Violation of this section is punishable under RCW [77.15.180](#) (3)(b).

(10) **When it is unlawful to buy or land crab from the ocean without crab vessel inspection.** It is unlawful for any fisher or wholesale dealer or buyer to land or purchase Dungeness crab taken from Grays Harbor, Willapa Bay, the Columbia River, or Washington coastal or adjacent waters of the Pacific Ocean during the first thirty days following the opening of a coastal crab season from any vessel that has not been issued a Washington crab vessel inspection certificate. The certificate will be issued to vessels made available for inspection in a Washington coastal port and that are properly licensed for commercial crab fishing if no Dungeness crabs are on board. Authorized department personnel will perform inspections not earlier than twelve hours prior to the opening of the coastal crab season and during the following thirty-day period.

(11) **Grays Harbor pot limit of 200.** It is unlawful for any person to take or fish for crab for commercial purposes in Grays Harbor (catch area 60B) with more than 200 shellfish pots in the aggregate. It shall be unlawful for any group of persons using the same vessel to take or fish for crab for commercial purposes in Grays Harbor with more than 200 shellfish pots.

(12) **Coastal crab pot limit.**

(a) It is unlawful for a person to take or fish for Dungeness crab for commercial purposes in Grays Harbor, Willapa Bay, the Columbia River, or waters of the Pacific Ocean adjacent to the state of Washington unless a crab pot limit has been assigned to the Dungeness crab coastal fishery license held by the person, or to the equivalent Oregon or California Dungeness crab fishery license held by the person.

(b) It is unlawful for a person to deploy or fish more shellfish pots than the number of shellfish pots assigned to the license held by that person, and it is unlawful to use any vessel other than the vessel designated on a license to operate or possess shellfish pots assigned to that license.

(c) It is unlawful for a person to take or fish for Dungeness crab or to deploy crab pots unless the person is in possession of valid documentation issued by the department that specifies the crab pot limit assigned to the license.

(13) **Determination of coastal crab pot limits.**

(a) The number of crab pots assigned to a Washington Dungeness crab coastal fishery license, or to an equivalent Oregon or California Dungeness crab fishery license will be based on documented landings of Dungeness crab taken from waters of the Pacific Ocean south of the United States/Canada border and west of the Bonilla-Tatoosh line, and from coastal estuaries in the states of Washington, Oregon, and California. Documented landings may be evidenced only by valid Washington state shellfish receiving tickets, or equivalent valid documents from the states of Oregon and California, which show Dungeness crab were taken between December 1, 1996, and September 16, 1999. Such documents must have been received by the respective states no later than October 15, 1999.

(b) The following criteria shall be used to determine and assign a crab pot limit to a Dungeness crab coastal fishery license, or to an equivalent Oregon or California Dungeness crab fishery license:

(i) The three "qualifying coastal Dungeness crab seasons" are from December 1, 1996, through September 15, 1997; from December 1, 1997, through September 15, 1998; and from December 1, 1998, through September 15, 1999. Of the three qualifying seasons, the one with the most poundage of Dungeness crab landed on a license shall determine the crab pot limit for that license. A crab pot limit of 300 shall be assigned to a license with landings that total from zero to 35,999 pounds and a crab pot limit of 500 shall be assigned to a license with landings that total 36,000 pounds of crab or more.

(ii) Landings of Dungeness crab made in the states of Oregon or California on valid Dungeness crab fisheries licenses during a qualifying season may be used for purposes of assigning a crab pot limit to a Dungeness crab fishery license, provided that documentation of the landings is provided to the department by the Oregon Department of Fish and Wildlife and/or the California Department of Fish and Game. Landings of Dungeness crab made in Washington, Oregon, and California on valid Dungeness crab fishery licenses during a qualifying season may be combined for purposes of assigning a crab pot limit, provided that the same vessel was named on the licenses, and the same person held the licenses. A crab pot limit assigned as a result of combined landings is invalidated by any subsequent split in ownership of the licenses. No vessel named on a Dungeness crab fishery license shall be assigned more than one coastal crab pot limit.

**(14) Appeals of coastal crab pot limits.** An appeal of a crab pot limit by a coastal commercial license holder shall be filed with the department on or before October 18, 2001. The shellfish pot limit assigned to a license by the department shall remain in effect until such time as the appeal process is concluded.

**(15) Coastal - Barging of crab pots by undesignated vessels.** It is unlawful for a vessel not designated on a Dungeness crab coastal fishery license to be used to deploy crab pot gear except as prescribed below:

(a) Such a vessel may not carry on board more than 250 crab pots at any one time.

(b) Such a vessel may deploy crab pot gear only during the 64-hour period immediately preceding the season opening date and during the 48-hour period immediately following

the season opening date.

(c) The primary or alternate operator of the crab pot gear named on the license associated with the gear must be on board the vessel when the gear is being deployed. Violation of this section is punishable under RCW [77.15.500](#).

**(16) Coastal crab buoys - Registration and use of buoy brands and colors.**

(a) It is unlawful for any coastal Dungeness crab fishery license holder to fish for crab unless the license holder has registered the buoy brand and buoy color(s) to be used with the license. A license holder shall be allowed to register with the department only one, unique buoy brand and one buoy color scheme per license. Persons holding more than one state license shall register buoy color(s) for each license that are distinctly different. The buoy color(s) shall be shown in a color photograph. Violation of this section is punishable under RCW [77.15.520](#).

(b) It is unlawful for a coastal Dungeness crab fishery license holder to fish for crab using any other buoy brand or color(s) than those registered with and assigned to the license by the department. Violation of this section is punishable under RCW [77.15.520](#).

### **Commercial crab fishery — Additional gear and license use requirements.**

(1) **Commercial gear limited to pots and ring nets.** It shall be unlawful to take or fish for crabs for commercial purposes except with shellfish pots and ring nets.

(2) **Commercial gear escape rings and ports defined.** It shall be unlawful to use or operate any shellfish pot gear in the commercial Dungeness crab fishery unless such gear meets the following requirements:

(a) Pot gear must have not less than two escape rings or ports not less than 4-1/4 inches inside diameter.

(b) Escape rings or ports described above must be located in the upper half of the trap.

(3) **Commercial crab gear buoy tag requirements.**

(a) In coastal waters each crab pot must have the department-issued buoy tag securely attached to the first buoy on the crab pot buoy line (the buoy closest to the crab pot), and the buoy tag must be attached to the end of that buoy, at the end away from the crab pot buoy line.

(b) In Puget Sound all crab buoys must have the buoy tag issued to the license owner by the department attached to the outermost end of the buoy line.

(c) If more than one buoy is attached to a pot, only one buoy tag is required.

(4) **Puget Sound - Description of lawful buoys.** All buoys attached to commercial crab gear in Puget Sound waters must consist of a durable material and remain floating on the water's surface when five pounds of weight is attached. It is unlawful to use bleach or antifreeze bottles or any other container as a float. All buoys fished under a single license must be marked in a uniform manner using one buoy brand number registered by the license holder with the department and be of identical color or color combinations. No buoys attached to commercial crab gear in Puget Sound may be both red and white in color unless a minimum of thirty percent of the surface of each buoy is also prominently marked with an additional color or colors other than red or white, as the red and white colors are reserved for personal use crab gear as described in WAC [220-56-320](#) (1)(c).

(5) **Commercial crab license requirements.** In addition to, and separate from, all requirements in this chapter that govern the time, area, gear, and method for crab fishing, landing, possession, or delivery of crabs, no commercial crab fishing is allowed except when properly licensed. A person may take, fish for, land, or deliver crabs for commercial purposes in Washington or coastal waters only when the person has the license required by statute, or when the person is a properly designated alternative operator to a valid license. For Puget Sound, a person must have a "Dungeness crab - Puget Sound" fishery

license provided by RCW [77.65.130](#). For coastal waters, such person must have a "Dungeness crab - Coastal" fishery license provided by RCW [77.65.130](#).
